About us

HIRATA TILE is a specialized trading company which sells and applies construction materials such as tiles, washbasins, etc.
We provide comprehensive suggestions to create vibrant spaces
by mainly developing and selling tiles. Through our consistent achievements and continuous growth, our company celebrates its 100th anniversary in 2019.

Philosophy

HIRATA TILE has engaged in numerous historic architectural projects in Japan together with architect offices and major construction companies for more than 50 years.
Building on these experiences, we launched our own original tile brand. Currently, HIRATA TILE has grown to operate three tile brands and one sanitaryware brand. As a unique team of professionals engaging in tiles from development to application,
we contribute to the Japanese construction industry.
